

HS250 Brass Pipe Fittings for USA

We offer wide varieties of pipe fittings and nipples. All tapered pipe threads are manufactured to the highest quality standards.

The pipe fittings and nipples are recommended for use with brass, copper or iron pipe, and can be used on different applications, such as oil, natural gas, water and air.

Features

- Working Temperature: -65°F to 250°F
- Working Pressure: 1,000psi on all barstock fitting and 125psi on all casting fittings at the temperature range stated above.

Installation Instructions

Place Teflon tape on the male pipe threads and screw the thread into the female fitting until threads stop and the connection becomes tight. Do not over tighten.
